PROFESSIONAL SUMMARY

Aspiring Software Developer and Computer Engineering student with hands-on experience in Android mobile application development, database management, and embedded systems programming. Proficient in Java, C#, SQL, and MSSQL, with practical experience using Android Studio, Visual Studio Code, Arduino IDE, Arduino, and ESP32 for software development and hardware integration. Experienced in developing application interfaces, troubleshooting computer hardware and software, and supporting IT operations through academic projects and internship experience. Eager to apply technical skills, enhance software engineering expertise, and contribute to the development of reliable and efficient technology solutions.

EXPERIENCE

Software Engineering Intern – Application Developer
Camfin (Cash Management Finance, Inc.)
06/2026 – 08/2026

- Developed dashboard, active employee list, and leave management modules for a Java-based Human Resource Information System (HRIS) mobile application.
- Collaborated with technical supervisors to refine mobile application UI/UX and align software features with business requirements.
- Collaboarate and deployed APK packages across company branches, configured VPN connections, and assisted with mobile device connectivity to central servers.
- Created system architecture flowcharts documenting workflows for employee, accounting, and treasury applications.
- Provided IT support by troubleshooting computer and network issues, managing mobile device inventory, and assisting with device configuration.

IT Intern – Computer Engineering Intern
Polytechnic University of the Philippines, Santa Maria, Bulacan Campus
07/2025 – 09/2025

- Diagnosed computer hardware issues and performed maintenance and repairs on 44 desktop computers, documenting hardware specifications and maintenance requirements.
- Troubleshot campus network connectivity, including router and switch configurations and RJ45 cabling.
- Provided technical support for computers, projectors, and audio equipment during university activities, helping maintain operational continuity.

PROJECTS

Eloan App
06/2026 Internship

- Collaborated with the supervisor to develop the front-end interface of the ELOAN application, an internal tool for Marketing Officers to encode client information, capture photos and identification documents, collect signatures, and process loan applications efficiently and securely.

Wireless Smoke Detector
04/2025 Freelance

- Developed a Bluetooth-enabled smoke detection prototype with SMS notifications to registered users.
- Tested alert functionality through trial activations.

Custom AI Tool Integration
07/2026 Independent Software Project

- Integrated the Groq API into a custom AI application for language-model inference.
- Implemented file-upload functionality to support document processing for administrative and accounting workflows.

Computer Hardware Technician
02/2023 – Present Freelance

- Diagnosed hardware and software issues involving motherboards, power supplies, RAM, and storage devices.
- Performed operating system installations, driver configuration, and system troubleshooting.
- Assisted users with computer maintenance and troubleshooting recommendations.

EDUCATION

Bachelor of Science in Computer Engineering
Polytechnic University of the Philippines – Santa Maria, Bulacan Campus

- Currently Enrolled
- Expected Graduation: August 2027

Senior High School – STEM Strand
Liceo di San Lorenzo
2021 – 2023

Junior High School
Jesus Lord and Savior Christian Colleges Foundation, Inc.
2017 – 2021

Technical SKILLS

Programming Languages
Java (Android Studio) • C# (Basic) • C++ (Basic) • XML

Mobile Application Development
Android development • Java • APK building and deployment

Web Development
HTML • CSS, Blazor • .NET

Databases
SQL • Microsoft SQL Server (MSSQL) • Supabase

Software Development Tools
Git • GitHub • Android Studio • Visual Studio • VS Code • Cisco Packet Tracer • Google Fonts

Embedded Systems
ESP32 • Arduino • Sensor integration • Electronics prototyping

IT Support
Computer hardware diagnostics • PC assembly • Operating system installation • Hardware troubleshooting

Networking
Basic networking fundamentals • Router and switch configuration • RJ45 cabling

AI Integration
Groq API integration

Soft Skills

- Problem Solving
- Critical Thinking
- Analytical Thinking
- Technical Troubleshooting
- Attention to Detail
- Adaptability
- Continuous Learning
- Team Collaboration
- Communication Skills
- Time Management
