PROFESSIONAL SUMMARY

Computer engineering student with hands-on experience in Java-based mobile application development, SQL databases, IT technical support, and hardware troubleshooting. Contributed to enterprise HRIS application modules and multi-branch APK deployment during an industry internship. Also experienced in ESP32, Arduino programming, and sensor-based IoT projects. Seeking a junior software development or application development opportunity to apply technical skills in building and maintaining practical software solutions.

Technical Skills

- **Programming Languages:** Java, For Arduino (C#, C, C++, SQL), XML
- **Web Development:** HTML5, CSS, Blazor, .NET
- **Mobile Development:** Android Studio, Java, UI Layouts
- **Databases:** Microsoft SQL Server (MSSQL), Supabase
- **Embedded Systems & IoT:** Arduino, ESP32, Sensor Integration, Hardware Integration, Wokwi
- **Software Development:** Application Development, Software Design
- **IT Support & Hardware:** PC Troubleshooting, Hardware Assembly, Windows CMD
- **Tools & Technologies:** Visual Studio, VS Code, GitHub, Cisco Packet Tracer, Google Fonts

---

Soft Skills

- Problem Solving
- Critical Thinking
- Analytical Thinking
- Technical Troubleshooting
- Attention to Detail
- Adaptability
- Continuous Learning
- Team Collaboration
- Communication Skills
- Time Management

Experience

Software Engineering Intern — Application Developer

Camfin (Cash Management Finance, Inc.) | June 2026 – August 2026

- Developed dashboard, active employee list, and leave management modules for a Java-based Human Resource Information System (HRIS) mobile application.
- Collaborated with technical supervisors to refine mobile application UI/UX and align software features with business requirements.
- Built and deployed APK packages across company branches, configured VPN connections, and assisted with mobile device connectivity to central servers.
- Created system architecture flowcharts documenting workflows for BDG CAS, Accounting, and Treasury applications.
- Provided IT support by troubleshooting computer and network issues, managing mobile device inventory, and assisting with device configuration.

IT Intern — Computer Engineering Intern

Polytechnic University of the Philippines, Santa Maria, Bulacan Campus | July 2025 – September 2025

- Diagnosed computer hardware issues and performed maintenance and repairs on 44 desktop computers, documenting hardware specifications and maintenance requirements.
- Troubleshot campus network connectivity, including router and switch configurations and RJ45 cabling.
- Provided technical support for computers, projectors, and audio equipment during university activities, helping maintain operational continuity.

Projects

Contactless Alcohol Dispenser — ESP32
Freelance Project | March 2026

- Developed an ESP32-based hand-detection system for a contactless alcohol dispenser.
- Programmed and tested sensor-triggered dispenser operation.

Wireless Smoke Detector
Freelance Project | April 2025

- Developed a Bluetooth-enabled smoke detection prototype with SMS notifications to registered users.
- Tested alert functionality through trial activations.

Custom AI Tool Integration
Independent Software Project

- Integrated the Groq API into a custom AI application for language-model inference.

- Implemented file-upload functionality to support document processing for administrative and accounting workflows.

Computer Hardware Technician
Freelance / Personal Projects | 2023 – Present

- Diagnosed hardware and software issues involving motherboards, power supplies, RAM, and storage devices.
- Performed operating system installations, driver configuration, and system troubleshooting.
- Assisted users with computer maintenance and troubleshooting recommendations.

Education

Polytechnic University of the Philippines – Santa Maria, Bulacan Campus
Bachelor of Science in Computer Engineering
Currently Enrolled | Expected Graduation: July 2026

Liceo di San Lorenzo
Senior High School – STEM Strand | 2021-2023

Jesus Lord and Savior Christian Colleges Foundation, Inc.
Junior High School | 2017–2021
